**AIMS Development:** USIIS staff have been working on a new database application called Adult Immunization Management System (AIMS). Initially, it will be used by Local Health Department staff to enter smallpox immunization data for healthcare workers. It will eventually be expanded to contain all Utah adult immunization data. CDC certification of the application is expected in early February. **Contact Sandra Schulthies at 801-538-6114 or [sschulthies@utah.gov](mailto:sschulthies@utah.gov).**

**Cottonwood Study:** USIIS will be conducting another follow-up study at Cottonwood Pediatrics in the near future. It will use the same methodology as the first time/motion study. However, it will include more qualitative feedback form clinic staff regarding usefulness and accuracy of the USIIS system and its timesaving effect on immunization services in the clinic. **Contact Christine Perfili at 801-538-6185 or [cperfili@utah.gov](mailto:cperfili@utah.gov).**

**USIIS Tip:** When calling the help desk, give a response email address to the help desk support person. If this is done, email notification will be sent when the issue is assigned to a USIIS support person, when it is opened to be worked on and when it is resolved. At that point, the issue is considered resolved by USIIS personnel. If, for some reason, the issue is found to not be resolved properly, the user can re-open the issue or submit it as a new issue through the help desk. **Contact Chris Pratt at 801-538-9945 or [cpratt@utah.gov](mailto:cpratt@utah.gov).**
